**Workflow**

Within the application, employees can submit timesheets and time off requests to their approvers. What we will need to achieve this is a list of employees and the manager who can approve their timesheets/time off requests. If this happens in a chain (more than one manager will approve the timesheet/time off request), then please indicate who the other approvers are in the order that it occurs. If there is a chain of managers who supervise entire departments, then you can just send a list of departments with the managers who supervise those departments. The final person in a chain of managers is generally the payroll administrator. See example format below.

Employee Name	Department Name	Manager 1 (View/Edit, 1 <sup>st</sup> Approval)	Manager 2 (View/Edit, 2 <sup>nd</sup> Approval)	Time Off Requests Handler
